OUR WASHINGTON LETTER.

The Inauguration.

WASHINGTON, March 14, 1873.

Our Journal—Well, it is over, the curtain drops on the prologue, and now what is to be the next act in the play? On the whole, the "introduction" with its "blare of trumpets" and "flourish of feathers," was a failure.

Several things conspired to make it so. First, the weather was frightful, the thermometer at five degrees below zero, it not only gave to enjoyment of sight-seeing, nor to perfection in the drill of the performers, and such nights as a "March" in line stopping his horse to put on his overcoat, or a whole company slapping their hands, "a la wood-chopper," are not dignified enough to suit the average "looker-on" at "pageants" of the sort meant to dignify and honor the day we celebrate.

And, truly, it was laughable to see an entire company of colored troops slapping their hands, stamping feet out of time with the music, and at the same time cutting each other, as in this way: "I say, Josh, ain't dis coal?" "Keep up, dar, in de line, wid you stop for 'em." "Out our colored wind and free coal, and did their slave toward honoring their 'Chief.'"

Their commander, the procession was the most unharmoniously constructed and miserably conducted of any ever seen, probably in connection with any of our "pageants." "The Cavalry" for instance, included a fine-looking body, and their drill excellent. So also the "Antiquarian" and "Historical" companies, dressed, etc., of our country. Soldiers in bearing, neat and orderly in dress, and their drill, attentive to duty.

As for the "march," it was a disgraceful sight, the greater shame of the apparatus shown along the route of procession. But the "Cavalry" and "Antiquarian" companies, dressed, etc., of our country. Soldiers in bearing, neat and orderly in dress, and their drill, attentive to duty.
